Tretford Cord Carpet (roll format) is made in Ireland using 80% Goat Hair, 15% Nylon and 5% Viscose. It's construction is unique due to the fusion bonding of the fibres and is commercial grade, however is used in many applications including residential, retail & hospitality. Due to the construction of Tretford, it can be cut in any direction without fraying or unravelling which allows you to create endless combinations of patterns and designs – whether it be a whole floor or custom rugs.
